### 1. Zloženke, Compound nouns / GRAMMAR

Kot dodatek k pouku danes na novo uvajamo snov ZLOŽENKE, ki jih sicer do neke mere že poznaš, ampak jih tule še dodatno razložimo. Sledi moj zapis. Prosim, prepisi ga v zvezek!

#### COMPOUND NOUNS - ZLOŽENKE

Zloženke dobimo z zlaganjem: dve sestavini, včasih tudi več.

Compound noun		
Police	man	policeman
boy	friend	boyfriend
fish	tank	water tank
dining	table	dining-table

You have noticed that the compound noun can be written either as a **single word**, as a word **with a hyphen**, or as **two words**. There are no clear rules about this. A good rule is to write the **most common** compound nouns **as one word**, and the others **as two words**.

Zloženke se v angleščini lahko zapišejo kot **ena beseda**, **dve besedi povezani z vezajem**, ali kot **dve ločeni besedi**. Edino pravilo je, da najbolj pogosto rabljene besede zapišemo kot **eno besedo**, ostale pa kot dve besedi.

## PRONUNCIATION

Stress is important in pronunciation, as it distinguishes between a compound noun and an adjective with a noun. In compound nouns, the stress usually falls on the first syllable.

Poudarek pri zloženkah je navadno na prvem zlogu. Glej : označen s simbolom (ˈ)

### EXAMPLES

- a 'greenhouse = place where we grow plants (compound noun)
- a green 'house = house painted green (adjective and noun)
- a 'bluebird = type of bird (compound noun)
- a blue 'bird = any bird with blue feathers (adjective and noun)
