Thursday, 14th May

Dolgujem vam rešitve **naloge 3**. učbeniku na strani 91:

- 3A: blood, sugar, custard, sleep, water
- 3B: 1 much 2 many 3 many 4 much 5 much 6 many 7 is 8 are
- 3C: 2. How many metres are there in a kilometre? (A thousand.)
  3. How many babies are born every day? (About 400,000.)
  4. How much does an African elephant weigh? (Five tons.)
  5. How much rice do the Chinese eat a day? (365,000 tons.)
  6. How many people can an Airbus carry? (More than 500.)

Danes bomo brali o povprečnem Američanu, še vedno bomo vadili vprašalnici How much in How many in utrdili znanje.

1. V **učbeniku na strani 91** preberite besedilo o povprečnem Američanu, neznane besede prevedi s pomočjo slovarja.

2. Reši tudi **nalogo 4B** v učbeniku – napiši odgovor, ki ga najdeš v besedilu, ali pa napiši » we don't know«, če podatka ni v besedilu.

3. V **delovnem zvezku na strani 60** – reši nalogi 1, 2, in na strani 61, nalogo 4.

Rešitve nalog iz delovnega zvezka mi pošlji na e-mail, do ponedeljka 18.5.

Vprašalnice z How much in how many zdaj ne bi smele biti več problem – če ima kdo težave oz. ne razume, naj mi piše, da dodatno razložim.

Do you know how many days ago you were in school for the last time?
Best wishes,
teacher Maja
